

Dexxo Smart io

For garage doors **EASY CONNECT!**

The new standard for your connected access

Smart io is a 100% connected, super-efficient system for motorised control of all your standard garage doors or gates.

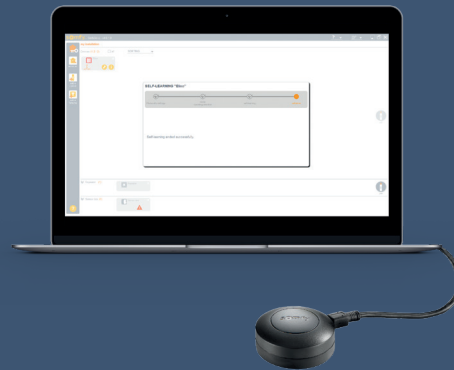

- Essential functions for an optimal, competitive product.
- Unique ergonomics for an easy 3 step set up: wiring, setting and accessorizing.
- Programming, diagnostic and maintenance made easy with Set & Go and SERV-E-GO connected tools.
- For your customers, a unique experience in terms of comfort, fluidity and security in home access control.

Choice of connected control

- **Connexoon Access**
The app dedicated to access products.

- **TaHoma**
The app for the entire house.

Easy Prog!

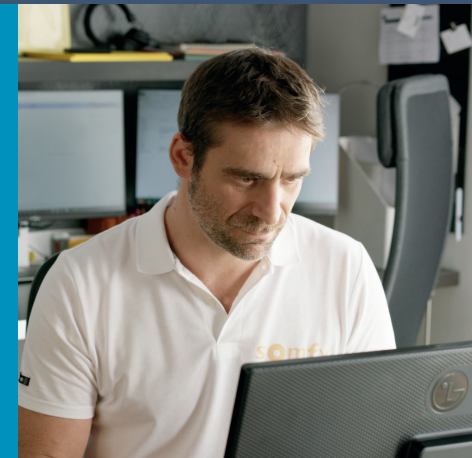

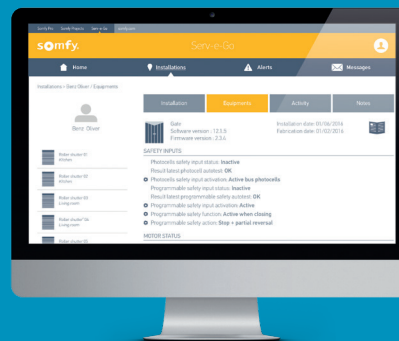

Set & Go io, your programming tool on the site:

- Intuitive, step by step approach, no need for a manual.
- Successful programming every time, no chance of mistake.
- Wireless, nothing to connect to the motor.

Easy Diagnostic!

SERV-E-GO, your remote maintenance and diagnostic interface. Without moving from your office, you can keep control of all your connected systems:

- Identification of installed systems.
- Accurate diagnostic.
- Reconfiguring the settings.
- Customised, automatic notifications for problems.

Easy install!

1 WIRING without error wiring

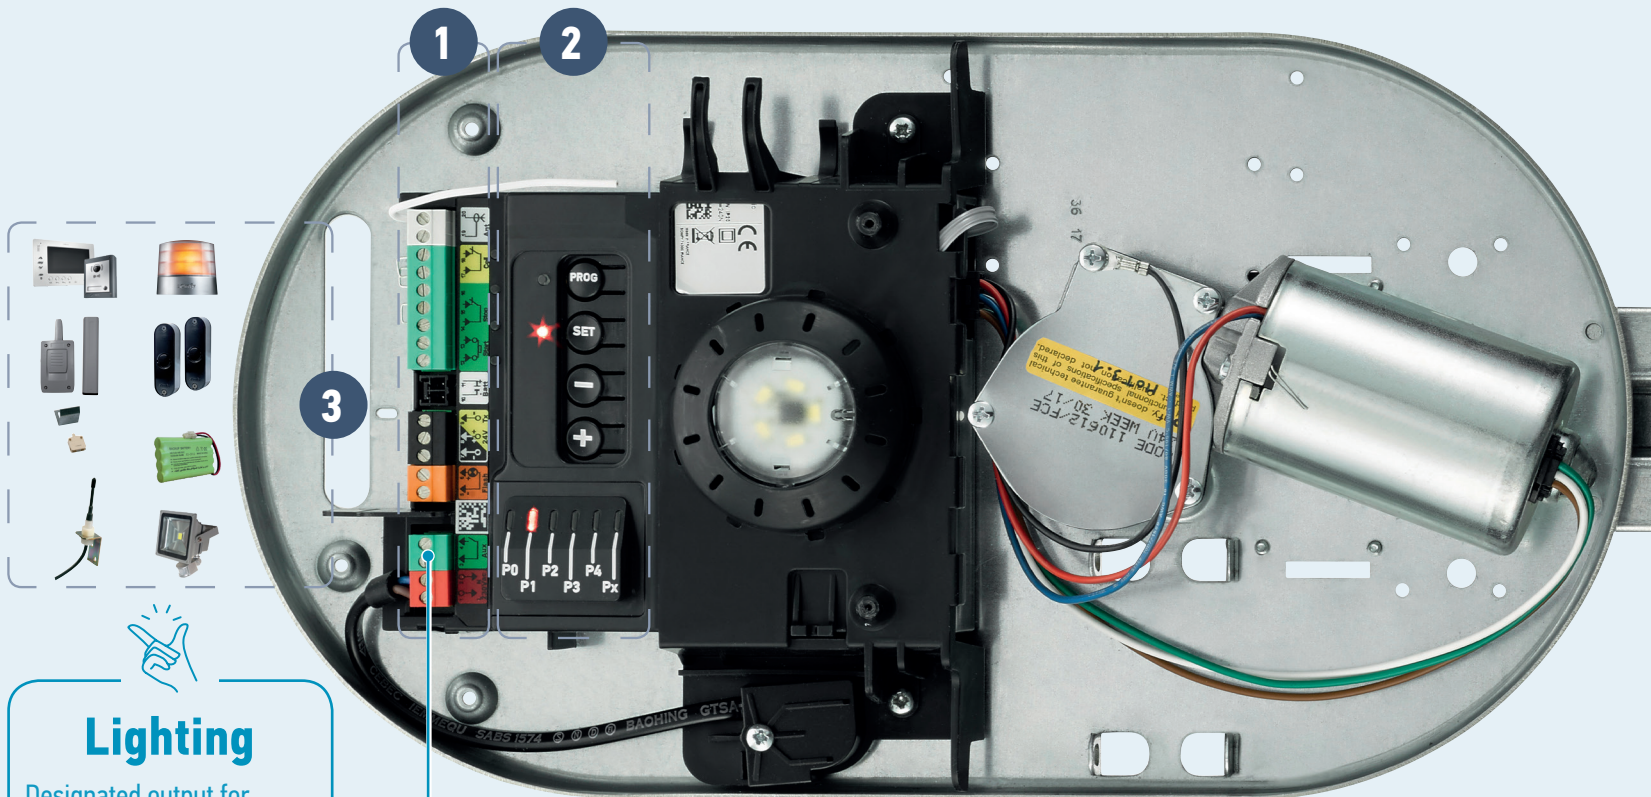

- Extractible, independent and clearly identified terminal blocks.
- 230V and 24V zones clearly separated.
- Wired input status lights.

2 SETTING in less than 90 secs

- 4 separate buttons for programming: 1 button = 1 function.
- 6 key settings: operating mode, speed, slow down area, obstacle detection sensitivity, type of photocells, type of garage door.

3 ACCESSORISING for enhanced comfort and safety

- Comfort: wired inputs control, backup battery, lighting, video door phone, etc.
- Safety: photocells, orange light, wicket door security.

Lighting

Designated output for remote lighting. Automatically synchronised with garage door, and controlled independently.

Application area

   Up to 10 m²

Dexxo Smart io

For professionals, everything you expect...

LED integrated lighting

Tailored to use lighting management for installation and use.

Backup battery

In the event of a power failure, the motor can continue to operate with the backup battery (optional).

Smooth control

You have full control of the essential motor operating parameters, for accurate, smooth and safe movement: speed, slow down area, obstacle detection sensitivity.

Fast & simple

Install, adjust and wire efficiently and easily.

- Easy reversing of rotation direction, without rewiring (lateral garage door application).
- Direct front access to electronics.
- Simple, intuitive programming interface.
- Encoder technology: mastered and accurate control of motor course.

A complete, open eco-system

- A customised installation based on your users' needs, Dexxo Smart io is compatible with a number of accessories for your comfort and security. Adding other connected devices, such as lights, camera or alarms allows you to make the most of your experience and your installation.
- The Somfy advantage: TaHoma, the most complete system for easy, simple and scalable control of all equipment in the house.
TaHoma is compatible with all Somfy products and those from major domestic equipment brands*. TaHoma is also open to the main global services platforms: IFTTT, Amazon Alexa, etc.*

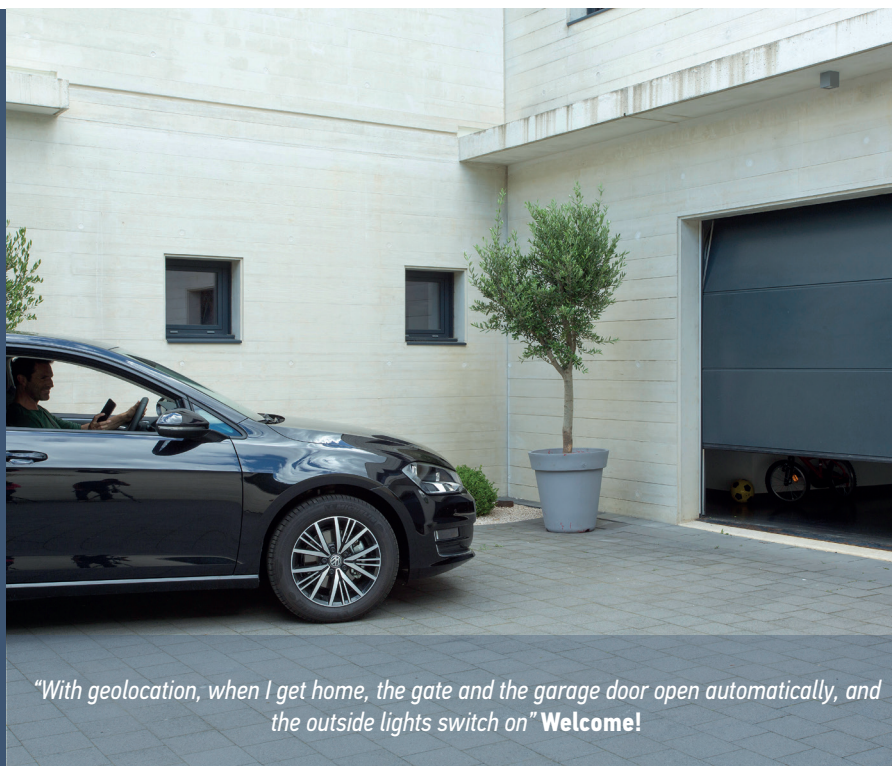

**availability depending on country. Additional product required.*

Dexxo Smart io

For your customers, everything they love...

Comfort and complete security

With Somfy's connected solutions your customers control their garage door and many other home equipments from a mobile phone, at any time...

Everyday life made easier

Automatic closure, pedestrian opening, synchronised inside and outside lights... it's life-changing. And with all the other possibilities of the connected life, it just gets better.

Pedestrian opening

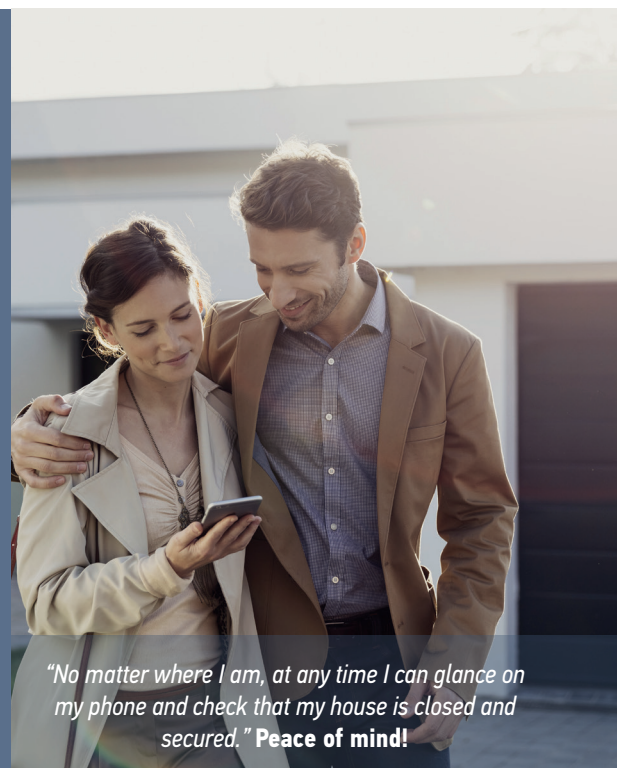

Partial opening possible for pedestrians and cyclists to pass through.

Peace of mind assured

Automatic obstacle detection , a backup battery in case of mains power failure, secure manual unlocking with a personal key, it all gives peace of mind for the whole family...

Even more peace of mind? The Check function in the connected mode.

Somfy reliability

- Soft stop and soft start, to preserve the garage door and installation's life.
- Tested for 36,500 openings and closings.

So smart communications
